

The **Washington State Heart Gallery**, in its third year with over 45 portraits, is scheduled for viewing throughout Washington State. Twenty-two project photographers have donated their time and talents to capture images of children, teens, families, adults, and seniors living in Washington State who are supported by one or more DSHS programs.

Come learn how you can get involved as a mentor, adoptive parent, volunteer, foster parent, or employer to an adult with disabilities.

Among the venue stops are Vancouver, Seattle, Spokane, and the spring and fall Puyallup Fairs.
